PROFILE SUMMARY

Computer Science undergraduate with hands on experience in Full stack development, AI integrated applications, and REST API design. Proficient in Java and with a solid understanding of data structures, algorithms, and database driven systems. Comfortable working across the entire development stack from backend logic to frontend delivery.

EXPERIENCE

AR/VR Developer Intern

SVCE | June 2025 – July 2025

- Built collaborative AR/VR projects using Unity, Unreal Engine, and Blender across the full development lifecycle.
- Tested and validated immersive applications on Oculus VR hardware to ensure performance and stability.

Chief Video Editor

Andropedia SRMIST Ramapuram | January 2025 – July 2025

- Served as Chief Video Editor for 7 months, producing all club media content and event documentation.

EDUCATION

B.Tech Computer Science Engineering in Specialization with Gaming Technology

SRM University, Ramapuram, Chennai. (2023-2027)

CGPA : 9.11

PROJECTS

VeriTrust-AI

- Built an AI powered developer credibility scoring engine that aggregates public data from GitHub, Stack Overflow, Reddit, Dev.to, and Hashnode into a verified Trust Score (0-100).
- Architected a stateful multi-agent LangGraph pipeline with nodes for harvesting, fraud detection, bias auditing, SHAP-style explainability, and LLM-generated natural language evaluation.
- Delivered an interactive React dashboard with SVG score gauges, SHAP factor charts, and fraud risk indicators.

Bizpulse

- Designed and shipped a full-stack fintech SaaS platform for freelancers featuring GST invoicing, expense tracking, and real-time cash flow analytics.
- Implemented JWT authentication, automated database seeding, and a Docker Compose orchestration setup covering PostgreSQL, Redis, backend, AI service, and frontend.

Beaute-AI

- Developed a premium AI-driven salon directory and beauty consultation platform with face shape scanning, skin tone analysis.
- Integrated Google Gemini as a conversational style assistant (Glowy) for personalized skin and haircut recommendations, and as a review summarizer outputting structured Pros / Cons / Verdict tables.

SKILLS

- Languages: Python, Java, JavaScript, C, C++, HTML, CSS
- Frameworks & Libraries: React, FastAPI, Three JS
- Databases: MySQL, PostgreSQL
- Tools & Concepts: Git, REST APIs, Docker, OOP, System Design, JWT Authentication
- AI & Integrations: OpenAI GPT-4o, Gemini API, Groq (Llama 3.3), Claude, Antigravity
- AR / VR & Design: Unity, Unreal Engine, Blender, Oculus SDK, Figma

ACHIEVEMENTS

Domain Prize — Hackxelerate'25 (April 2025)

KPRIET, Coimbatore.

- Competed in Hackxelerate'25, a national level 24 hour hackathon at KPRIET Coimbatore with 1200+ students and 300+ teams, and single handedly designed and built a complete 3D model of a college block from scratch as the team's core deliverable.
- The 3D model stood out as the defining technical contribution of the Smart Campus solution.

Best Paper Award — AstralThesis'26 (Jan 2026)

RMK College of Engineering, Chennai.

- Authored and presented "Immersive Extended Reality Framework for Safe and Scalable Mechanical Workshop Skill Development" won Best Paper at a competitive intercollege paper presentation event.

Best Paper Award — ICICRCET'25 (May 2025)

SVCE, Chennai.

- International Conference on Innovative Computing, Robotics & Control Engineering Technologies.
- Co-authored the paper "iLab" and won Best Paper Award at this international conference.
